bienvenue/WELCOME

It's our pleasure to present to you the Seventh Annual Art Matters Festival.
Bigger and better than ever and yours to enjoy!

So much art.

After viewing the record-breaking amount of submissions we received this year (over 350!!), we present to you a festival full of dynamic exhibits, events and performances. Shows that address a variety of topics, ideas and concepts in a diverse array of artistic mediums that reflect only a fraction of the incredible talent found at Concordia. Art matters in many forms.

As with every year, we've continued to forge new relationships within the Montreal arts community. We would like to extend a warm welcome to Galerie Yergeau (p.11), Quartier Libre (p.15), The Long Hall (p.28.), The Redbird (p.26) and Ctrl Lab (p.25) as new festival venues. May they be friends for many more. We'd also like to welcome a few special collaborations - nightly projections with La Centrale (p.43), a stimulating panel discussion hosted by Mark Clintberg (in collaboration with the Fine Arts Chapter of the CUAA, p.41), a party hosted by PONY TV at Zoobizarre (p.42), and the very exciting all nighter - La Nuit Blanche at the Darling Foundry (p.10).

This festival is a clear declaration that what Concordia students are exploring, creating and contributing is relevant and very much matters. As students in the arts, we are often faced with uncertainty of how to negotiate our way around the larger art scene as well as our personal art practice. Gaining experience and being able to test out how we might position ourselves in this structure is invaluable. Art Matters offers a unique opportunity to gain direct experience with every aspect of arts organizing; applying, writing, jurying, selecting, curating, meeting, cooperating, promoting, directing, installing and hosting.

It appears not only that art matters - this festival does as well. Throughout the year, it has become obvious to us how important this festival is. We believe that this is the best Art Matters yet. As much work as this was, it has been a great experience for us and we hope that it is for you as well.

Sincerely,

Jim Verburg and Celia Perrin Sidarous
Art Matters Festival Co-Producers and Artistic Directors

history

In 2000, five Fine Arts students at Concordia University (Julie Fowler, Ruthie Sumiko Tabata, Yael Wand, Michael Golden and Declan O'Drischoll), decided that there needed to be an opportunity for students to exhibit their work to their peers and to the public. The result was a two-week celebration of all forms of art, animation, dance, design, film, music, spoken word, theatre and visual art.

Celebrating its seventh year, Art Matters has become a renowned festival that showcases the incredible emerging talent of Concordia students. Past venues have included the World Beat Music Centre, Musée D'Art Contemporain, Art Mur, The SAT, The Corona Theatre, Art en Majuscule, The Darling Foundry and others. In 2005 the festival received Best Art Exhibit in the Montreal Mirror's Annual "Best of Montreal" readers poll.

Art Matters is making a name for itself and our students by bringing art to the community and the community to art. Our Call for Submissions is open to any and all concordia students. For more information about how you can get involved, please check out our website: <http://artmatters.concordia.ca/>.

This body of work deals with the naivety of youth and masculinity. Interested in the unconsciousness, tranquility and innocence, Hunter paints on found objects, which are used for sleep.

365 Mont-Royal., metro Mont-Royal

Curated by Maria Salazar

Show dates: March 7 - April 2
Vernissage: March 7, 7pm

Khadija C. Baker.

The Energy of the City, video.

The videos are animated images of water running from a tap, underneath the surface beauty of these colors I wish to emphasize the repetitive nature of the construction of modern cities.

A series of photographs taken in Concordia buildings as well as other sites in Montreal. They explore back-corridors, stairwells, construction and maintenance sites, and other nooks and crannies in our buildings and cities.

Nick Prescott.

A cityscape, film.

The tracks are coming and the people are parting like the curtailed roots of a bipolar poplar. Pulp gets piggy-backed by water, dies of decadence and is ready for its first tattoo.

The city at every hour of the day is a different city, obscure or magnificent, hidden or public; and these relations the city provides are the way in which we perceive it and experience it.

Instead, the group exhibition Get a Life engineers improvised pavilions of purpose that salvage and celebrate heartfelt facets of the rebuked project.

PANEL DISCUSSION

March 9th, EV 1.605 (1515 St Catherine West), 3pm to 6pm

The 7th annual Art Matters Festival (in collaboration with the Fine Arts Chapter of the Concordia University Alumni Association) warmly invites you to a panel/round table discussion moderated by Mark Clintberg.

BREAK IN/BREAK OUT/BREAK UP: TESTING THE LIMITS AND TAKING A STAND IN CONTEMPORARY CULTURAL PRACTICE

In our creative endeavors we are faced with three primary options: either work within the system we are presented with, subvert it, or switch to another discipline to get what we need and enact the intellectual stance we choose. This can involve tooling a space within a community that one may largely disagree with, making radical public gestures to take down the larger formation, or developing revolutionary private acts.

Moderator Mark Clintberg is an artist, writer, and independent curator based in Montreal. Since graduating from the Alberta College of Art & Design in 2001 he has shown work and curated exhibitions across Canada and in the United States. He has held positions at the Art Gallery of Calgary as Associate Curator, Paul Kuhn Gallery as Gallery Registrar, and Artcity as Festival Coordinator. His writing has been published with Canadian Art, Maisonneuve, The Art Newspaper, Arte al Dia International, and Border Crossings. Currently Clintberg is completing his Master's in Art History at Concordia University.

Panelists include **Cynthia Hammond, Raymonde April, Susannah Wesley and Meredith Carruthers of Leisure Projects**, and others to be announced.

Jennifer Willet And Shawn Bailey,
BIOTEKNICA: Corporate Art for a Corporeal Public

BIOTEKNICA: Corporate Art for a Corporeal Public is a virtual bioengineering corporation rooted in, and extrapolating from, contemporary biotechnological research. However, the organisms produced within *BIOTEKNICA* do not adhere to patterns of structure and functionality normally manifest in nature. They are modelled upon the notion of teratoma, a rare and unusual cancerous growth containing multiple human tissues. Monstrous as these creatures may seem, scientists are currently conducting research on the teratoma as they believe it might provide the key to future development of therapeutic cloning technologies. Jennifer Willet and Shawn Bailey, the artists behind *BIOTEKNICA*, have developed a complex multimedia installation as the culmination of five years of research and production that includes a "laboratory," images, video and soft sculptures "that tip the scales between representation and reality." *BIOTEKNICA* serves as a dynamic interface – inviting the user into the laboratory and participate as the lead scientist. It asks the user/viewer to consider and participate in the deep complexities and ethical dilemmas that biotechnology presents to the future of humanity.

Mills Purchase Prize Collection
Winners 2006

The Mills Prize is an annual purchase award, dedicated to G.H. Stanley Mills. The Mills Prize was established to recognize the talents of young Concordia University students enrolled in the Faculty of Fine Arts, and to encourage the artistic performance of students who also show interest and promise as potential educators. The Mills Prize is awarded annually, in the form of an art purchase. The purchased work may be produced in the Visual Arts, Performing Arts and Cinema, by Undergraduate or Graduate Students. Undergraduate work in the Visual Arts is chosen from the annual Undergraduate Exhibition and Graduate Visual Arts submissions are received by the selection committee. Cinema prizes are chosen from a screening of student work, and performing arts selections are based on recommendations from the Performing Arts (Dance, Music and Theatre) Department Chairs. This award is meant to celebrate the legacy of Stanley Mills as much as it is to support and celebrate the talents of young artists.

The 2007 schedule includes the following events:

Feb. 22 Concordia University,
York Amphitheatre,
EV 1.605 - 6:00 p.m.

Margie Gillis,
Solo Dance Artist/Choreographer

Dancing From the Inside Out: Imagination, Rebellion, Authenticity. Internationally acclaimed modern dance artist Margie Gillis has been performing her solo dance concerts for thirty years. As a choreographer and performer of more than eighty original solo dance works, she has earned rave reviews throughout the world. In this lecture Margie Gillis discusses her unique vision and career, exploring creative elements, the individual contribution to the collective and the immediacy of thought, emotion and physicality.

Margie Gillis is an Honorary Cultural Ambassador for both the Québec and Canadian governments. In 1988, she was the first modern dance artist to be appointed to the Order of Canada.

This lecture will be followed by a meet-the-artist reception.

March 29 Maxwell Cummings Auditorium, Montreal Museum of Fine Arts - 6:00 p.m.

Stéphane Aquin,
Curator of Contemporary Art at the
Montreal Museum of Fine Arts

The Temptation of Interdisciplinarity: Museums & the Transformation of Art. The transformation of art under the varied practices of interdisciplinarity is challenging the way museums look at art, present it, acquire it and conserve it. Conversely, museums have the ability to challenge the traditional boundaries of academic disciplines and promote an interdisciplinary vision of art. The Montreal Museum of Fine Arts is a case in point.

FASA represents undergraduate students enrolled in Concordia's Faculty of Fine Arts. Any student in Fine Arts may run for Executive positions in the FASA general elections (for this year: March, 2007), or may, through their departmental association, be appointed to sit as a representative on FASA Council.

Our association strives to ensure that Fine Arts students' voices and priorities are heard, whether in urging governments to preserve or restore funding for Fine Arts education or calling for arts-funding organizations to provide opportunities for student and emerging artists. FASA meets with university administrators in order to make all aspects of campus life as student-friendly as possible.

FASA provides support (financial grants, tabling services, communications assistance) to departmental student clubs and associations. Twice each year, FASA provides special projects grants to students and student groups in support of their artistic endeavours.

LES FLEURS DU MAL

Les Fleurs du Mal is a bilingual magazine focused on giving emerging and professional artists a public space in which to share fine art related issues. We publish feature articles, profiles, reviews, letters and reproductions of artworks.

LFDM is published on an occasional basis by emerging student artists and is produced entirely by volunteer labor. The magazine is free at a number of selected locations in Montreal, and internationally.

THE VOID

<http://www.thevoidmagazine.ca/>

The Void is a quarterly publication of journalism, short-fiction, and visual art that adopts a thematic approach. Since 2002, the magazine has served the undergraduate community as a forum for its artistic and intellectual pursuits.

The Void is distributed throughout the Sir George Williams and Loyola campuses, as well as many cafes, bookstores, and galleries in all of Montreal's student neighborhoods.

The magazine is distributed free of charge, and remains entirely funded thanks to donations, bursaries and advertising.
